This press release and oral statements made from time to time by representatives of the Company may contain certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include the statements regarding, among other things, our current expectations about the Company's future results and financial condition, revenues, store openings and closings, employee reductions, margins, expenses and earnings and are indicated by words or phrases such as "anticipate," "estimate," "expect," "project," "we believe," "can" and similar words or phrases. These forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to be materially different from the future results, performance or achievements expressed in or implied by such forward-looking statements. Forward-looking statements are based largely on the Company's expectations and judgments and are subject to a number of risks and uncertainties, many of which are unforeseeable and beyond our control. The factors that could cause actual results to materially differ include, among others: the loss of key personnel, including Mr. Ralph Lauren, or other changes in our executive and senior management team or to our operating structure, and our ability to effectively transfer knowledge during periods of transition; our ability to successfully implement our long-term growth strategy and achieve anticipated operating enhancements and cost reductions from our restructuring plans; the impact to our business resulting from investments and other costs incurred in connection with the execution of our long-term growth strategy, including restructuring-related charges, which may be dilutive to our earnings in the short term; our ability to continue to expand or grow our business internationally and the impact of related changes in our customer, channel, and geographic sales mix as a result; our ability to open new retail stores, concession shops, and digital commerce sites in an effort to expand our direct-to-consumer presence; the impact to our business resulting from changes in consumers' ability, willingness, or preferences to purchase premium lifestyle products that we offer for sale and our ability to forecast consumer demand, which could result in either a build-up or shortage of inventory; our ability to continue to maintain our brand image and reputation and protect our trademarks; our ability to effectively manage inventory levels and the increasing pressure on our margins in a highly promotional retail environment; the impact to our business resulting from potential costs and obligations related to the early closure of our stores or termination of our long-term, non-cancellable leases; the impact of economic, political, and other conditions on us, our customers, suppliers, vendors, and lenders; our ability to secure our facilities and systems and those of our third-party service providers from, among other things, cybersecurity breaches, acts of vandalism, computer viruses, or similar Internet or email events; our efforts to successfully enhance, upgrade, and/or transition our global information technology systems and digital commerce platform; the potential impact to our business resulting from the imposition of additional duties, tariffs, taxes, and other charges or barriers to trade, including those resulting from current trade developments with China; a variety of legal, regulatory, tax, political, and economic risks, including risks related to the importation and exportation of products which our operations are currently subject to, or may become subject to as a result of potential changes in legislation, and other risks associated with our international operations, such as compliance with the Foreign Corrupt Practices Act or violations of other anti-bribery and corruption laws prohibiting improper payments, and the burdens of complying with a variety of foreign laws and regulations, including tax laws, trade and labor restrictions, and related laws that may reduce the flexibility of our business; changes in our tax obligations and effective tax rate due to a variety of other factors, including potential additional changes in U.S. or foreign tax laws and regulations, accounting rules, or the mix and level of earnings by jurisdiction in future periods that are not currently known or anticipated; the impact to our business resulting from the recently enacted U.S. tax legislation commonly referred to as the Tax Cuts and Jobs Act, including related changes to our tax obligations and effective tax rate in future periods, as well as the enactment-related charges that were recorded on a provisional basis based on a reasonable estimate and are subject to change, all of which could differ materially from our current expectations and/or investors' expectations; the impact to our business resulting from the United Kingdom's decision to exit the European Union and the uncertainty surrounding the terms and conditions of such a withdrawal, as well as the related impact to global stock markets and currency exchange rates; the impact to our business resulting from increases in the costs of raw materials, transportation, and labor, including healthcare-related costs; our exposure to currency exchange rate fluctuations from both a transactional and translational perspective; the potential impact to our business resulting from the financial difficulties of certain of our large wholesale customers, which may result in consolidations, liquidations, restructurings, and other ownership changes in the retail industry, as well as other changes in the competitive marketplace, including the introduction of new products or pricing changes by our competitors; the potential impact on our operations and on our suppliers and customers resulting from natural or man-made disasters; the impact to our business of events of unrest and instability that are currently taking place in certain parts of the world, as well as from any terrorist action, retaliation, and the threat of further action or retaliation; our ability to maintain our credit profile and ratings within the financial community; our ability to access sources of liquidity to provide for our cash needs, including our debt obligations, tax obligations, payment of dividends, capital expenditures, and potential repurchases of our Class A common stock, as well as the ability of our customers, suppliers, vendors, and lenders to access sources of liquidity to provide for their own cash needs; the potential impact to the trading prices of our securities if our Class A common stock share repurchase

activity and/or cash dividend payments differ from investors' expectations; our intention to introduce new products or enter into or renew alliances; changes in the business of, and our relationships with, major department store customers and licensing partners; our ability to make certain strategic acquisitions and successfully integrate the acquired businesses into our existing operations; and other risk factors identified in the Company's Annual Report on Form 10-K, Form 10-Q and Form 8-K reports filed with the Securities and Exchange Commission. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
