"This has been a year of profound challenge and reflection – both for our company and for communities around the world. For us, it was a reminder of the importance of staying true to our core vision — anchored in the ideas of timelessness and authenticity — while embracing new ways of connecting with people," said Ralph Lauren, Executive Chairman & Chief Creative Officer. "As we begin to heal from a year marked by pain and division, we believe the kind of luxury we stand for — one that is inclusive and marked by a spirit of togetherness, optimism and love — is what people are craving."

"This fiscal year, we fundamentally repositioned our company for long-term success – accelerating our digital and marketing capabilities, eliminating structural headwinds, focusing our brand portfolio and realigning our cost structure – all while continuing our brand elevation journey around the world," said Patrice Louvet, President & Chief Executive Officer. "In the fourth quarter, our teams demonstrated incredible resilience, leading us to achieve better than expected operating results across all regions as our brand resonated with new and existing consumers. Looking ahead, even as the environment remains volatile, with the strength of our brand, our teams and operational position, we are confident in our ability to deliver sustainable long-term growth and value creation in Fiscal 2022 and beyond."

Key Achievements in Fiscal 2021

As we continued to navigate a volatile global retail environment, we delivered the following highlights across our strategic priorities in the fourth quarter and full year Fiscal 2021:

• Win Over a New Generation of Consumers

- Accelerated marketing investments to 44% growth in the fourth quarter as we drove high-impact digital campaigns, reactivated in-person activities, and shifted spend from the first three quarters of the year due to COVID lockdowns. Highlights from the quarter included our Spring '21 Collection digital experience featuring a livestream concert with Janelle Monáe, CLOT x Polo Ralph Lauren collaboration with Edison Chen, and debut sponsorship of the Australian Open
- For the full year Fiscal 2021, marketing increased to 6.0% of total revenues, up from 4.5% last year, to support our brand elevation and drive consumer engagement, resulting in accelerated growth in global brand awareness and purchase intent
- Strategically shifted investments toward innovative digital campaigns, including our Ralph Lauren x Bitmoji Collection with over 1 billion try-ons on Snapchat, virtual concert experience featuring Chance the Rapper, global Farfetch launch, and our 360° holiday campaigns emphasizing our core Ralph Lauren values

• Energize Core Products and Accelerate Under-Developed Categories

- Average unit retail (AUR) across our direct-to-consumer network grew 30% in the fourth quarter and 26% for full year Fiscal 2021, with underlying growth of about 20% excluding unusual COVID mix impacts. All geographies exceeded our long-term targets of low- to mid-single digit annual AUR growth, led by more than 20% growth in both North America and Europe as we accelerated our brand elevation initiatives this year
- Leveraged the breadth of our lifestyle brand to tailor our product to changing consumer preferences by region, including expanding our high-potential underdeveloped categories such as outerwear and fleece and prudently building back into new seasonal assortments as consumer demand strengthens and evolves
- Expanded into new digital platforms including the launch of The Lauren Look, our first subscription apparel rental service, offering consumers an innovative new channel to experience, engage and ultimately shop the Lauren Ralph Lauren brand as they build their personal wardrobes in a rapidly evolving retail landscape

• Drive Targeted Expansion in Our Regions and Channels

- Delivered sequential improvement across all geographies in the fourth quarter led by Asia and Europe, despite further government-mandated restrictions due to COVID-19 in both regions. North America comps strengthened into the end of the period, inflecting to positive 3% growth in the fourth quarter
- Strong momentum in the Chinese mainland, with fourth quarter sales increasing 145% to last year in constant currency as we lapped significant impact from COVID-19 and increasing more than 70% compared to fourth quarter Fiscal 2019

• Lead with Digital

- Global digital revenue accelerated across both owned and wholesale digital channels and across all geographies in the fourth quarter, with owned digital sales increasing 52% to last year and total digital ecosystem sales up more than 60%
- Operating margins in our owned digital business expanded more than 1,000 basis points to last year for both the fourth quarter and full year. Digital operating margins were accretive to total company margin rate, with similar improvement across all regions

The Company had \$108 million in capital expenditures in Fiscal 2021, compared to \$270 million in the prior year period. The decrease was primarily due to lower spending during the pandemic, compared to higher spending related to the Company's office consolidation in the prior year period.

Fiscal 2021 Strategic Realignment Plan Update

As previously announced, a strategic review has been underway to support future growth and profitability and to create a sustainable cost structure. The review process includes the evaluation of Ralph Lauren's: (i) team organizational structures and ways of working; (ii) real estate footprint and related costs across corporate offices, distribution centers, and direct-to-consumer retail and wholesale doors; and (iii) brand portfolio.

Previously announced actions related to the Fiscal 2021 Strategic Realignment Plan included a reduction of the Company's global workforce in Fiscal 2021, transitioning the Chaps brand to a fully licensed business model, plans to further right-size and consolidate corporate offices and distribution centers and identifying up to 10 stores subject to potential closures through Fiscal 2022.

The Company concluded the final stage of the plan with its brand portfolio review. On May 13th, the Company announced a definitive agreement to sell Club Monaco to Regent, L.P. The move will better position Ralph Lauren to focus its resources on its core brands as part of its Next Great Chapter elevation strategy. Club Monaco revenues were approximately \$100 million in Fiscal 2021 and \$210 million in Fiscal 2020, prior to the pandemic.

Updates to Ralph Lauren Board of Directors

Mr. Joel Fleishman, after twenty-two years of service on our Board of Directors, will not stand for reelection for his term set to expire at the end of July at the 2021 Annual Meeting of Stockholders. We are grateful for Mr. Fleishman's commitment, leadership and significant contributions to the Company.

In addition, effective after the 2021 Annual Meeting, Mr. Hubert Joly, Former Chairman and Chief Executive Officer of Best Buy Co., Inc. and Chair of our Finance Committee, has been appointed to serve as the Board's new Lead Independent Director replacing Mr. Frank Bennack. Mr. Bennack will continue to serve on our Board.

Full Year Fiscal 2022 and First Quarter Outlook

The Company continues to note the ongoing uncertainty and evolving situation surrounding COVID-19 impacting the timing and path of recovery in each market, including the potential for further resurgences of the pandemic across various markets. The full year Fiscal 2022 and first quarter guidance excludes restructuring-related and other charges, as described in the "Non-U.S. GAAP Financial Measures" section of this press release.

For Fiscal 2022, the Company expects constant currency revenues to increase approximately 20% to 25% to last year on a 52-week comparable basis. The 53rd week is expected to contribute approximately 140 basis points to revenue growth. Foreign currency is expected to negatively impact revenue growth by approximately 50 to 70 basis points in Fiscal 2022.

The Company expects operating margin for Fiscal 2022 of about 11.0%, an increase of approximately 620 basis points on a reported basis. Operating margin expansion is expected to be driven by operating expense leverage, while gross margin is expected to be down 40 to 60 basis points as mix normalizes. About 150 basis points of the 380 basis points of gross margin expansion in the prior year were driven by unusual COVID-related mix benefits due to significant store closures across regions.

For the first quarter, revenues are expected to increase approximately 140% to 150% in constant currency to last year. Foreign currency is expected to positively impact revenue growth by approximately 250 basis points. This outlook reflects confirmed government-mandated lockdowns and other COVID-related restrictions across several key markets, notably in Europe and Japan. The Company's current outlook could be negatively impacted if government-mandated lockdowns or restrictions are extended or more severe measures are applied. First quarter results include the operating performance of Club Monaco, with the sale expected to be completed by the end of the quarter.

Operating margin for the first quarter is expected in the range of 7.0% to 7.5% with significant operating expense leverage more than offsetting gross margin contraction. Gross margin is expected to contract approximately 575 basis points to last year as the Company laps unusual COVID-related mix benefits from the prior year, when the majority of our stores across North America and Europe were closed.

The full year Fiscal 2022 tax rate is expected to be in the range of 26% to 27%, assuming a continuation of current tax laws. First quarter of Fiscal 2022 tax rate is expected to be about 22% to 24%.

The Company is planning capital expenditures for Fiscal 2022 of approximately \$250 million to \$275 million.

NON-U.S. GAAP FINANCIAL MEASURES

Because Ralph Lauren Corporation is a global company, the comparability of its operating results reported in U.S. Dollars is affected by foreign currency exchange rate fluctuations because the underlying currencies in which it transacts change in value over time compared to the U.S. Dollar. Such fluctuations can have a significant effect on the Company's reported results. As such, in addition to financial measures prepared in accordance with accounting principles generally accepted in the U.S. ("U.S. GAAP"), the Company's discussions often contain references to constant currency measures, which are calculated by translating current-year and prior-year reported amounts into comparable amounts using a single foreign exchange rate for each currency. The Company presents constant currency financial information, which is a non-U.S. GAAP financial measure, as a supplement to its reported operating results. The Company uses constant currency information to provide a framework for assessing how its businesses performed excluding the effects of foreign currency exchange rate fluctuations. Management believes this information is useful to investors for facilitating comparisons of operating results and better identifying trends in the Company's businesses. The constant currency performance measures should be viewed in addition to, and not in lieu of or superior to, the Company's operating performance measures calculated in accordance with U.S. GAAP.

This earnings release also includes certain other non-U.S. GAAP financial measures relating to the impact of charges and other items as described herein. The Company uses non-U.S. GAAP financial measures, among other things, to evaluate its operating performance and to better represent the manner in which it conducts and views its business. The Company believes that excluding items that are not comparable from period to period helps investors and others compare operating performance between two periods. While the Company considers non-U.S. GAAP measures useful in analyzing its results, they are not intended to replace, nor act as a substitute for, any presentation included in the consolidated financial statements

prepared in conformity with U.S. GAAP, and may be different from non-U.S. GAAP measures reported by other companies.

Adjustments made during the fiscal periods presented include charges recorded in connection with the Company's restructuring activities, as well as certain other charges (benefits) associated with other non-recurring events, as described in the footnotes to the non-U.S. GAAP financial measures above. The income tax benefit (provision) has been adjusted for the tax-related effects of these charges, which were calculated using the respective statutory tax rates for each applicable jurisdiction. The income tax benefit (provision) has also been adjusted for certain other one-time income tax events and other adjustments, as described in the footnotes to the non-U.S. GAAP financial measures above. Included in this earnings release are reconciliations between the non-U.S. GAAP financial measures and the most directly comparable U.S. GAAP measures before and after these adjustments.

Additionally, the Company's full year Fiscal 2022 and first quarter guidance excludes certain anticipated restructuring-related and other charges. The Company is not able to provide a full reconciliation of these non-U.S. GAAP financial measures to U.S. GAAP because certain material items that impact these measures, such as the timing and exact amount of charges related to its restructuring plans, have not yet occurred or are out of the Company's control. Accordingly, a reconciliation of the Company's non-U.S. GAAP based financial measure guidance to the most directly comparable U.S. GAAP measures is not available without unreasonable effort. However, the Company has identified the estimated impact of certain items excluded from its financial outlook. Specifically, the Company's financial outlook excludes estimated pretax charges of approximately \$65 million to \$115 million related to its Fiscal 2021 Strategic Realignment Plan that have not yet been incurred.
